

# State of Green

# T O U R S

The word 'TOURS' is rendered in large, bold, blue-outlined letters. The letters 'O', 'U', and 'S' are filled with a photograph of four men in business attire standing outdoors near a body of water and a wind turbine. The man in the 'O' is seen from the back, looking towards the water. The man in the 'U' is in profile, gesturing with his hands. The man in the 'S' is also in profile, looking upwards. The background shows a clear blue sky, a calm sea, and a grassy dune area with a wind turbine in the distance.

Experience Danish solutions live

# State of Green welcomes you

State of Green offers you the opportunity to experience Danish solutions in the fields of energy, climate adaptation, water and environment.

## **Experience Danish solutions live**

A tour offers you a chance to take advantage of the lessons learned by leading Danish companies and institutions and find solutions to the challenges of your industry and society. You can combine business meetings with site visits and conferences and other events in the area of your interest.

## **Who can go on a tour?**

Since State of Green started arranging tours in 2008, we have hosted more than 300 delegations consisting of more than 4,500 visitors. A State of Green Tour is relevant for:

- › Top management, technical management and commercial management in leading energy and environment companies and other companies committed to the energy, climate, water or environmental agenda.
- › Investors, developers, technology providers and consulting engineers.
- › Politicians and civil servants from all levels of the public sector: national, state, regional and municipality levels.
- › Journalists from a number of media and editorial areas, including business, politics, economics, sustainability and climate change.

# Tours tailored to your needs

Serving businesses, politicians, civil servants and journalists, State of Green creates tours tailored to your needs. Through our extensive network of contacts we arrange business meetings and site visits suited to your needs. In addition, we offer to handle all logistics related to your visit.

## What we offer

Our services are free of charge, however, we expect visitors to handle all other costs related to the tour, including local transportation, accommodation, meals and interpretation, if needed. You can find inspiration for your tour at [www.stateofgreen.com](http://www.stateofgreen.com) where you can explore solutions, learn about products and connect with profiles.

## How to request a tour

If you are interested in going on a tour, please go to [www.stateofgreen.com/tours](http://www.stateofgreen.com/tours) and fill out a visit plan request form. Here you can select the profiles and solutions you are interested in visiting by adding them to your visit plan. Following your selection, simply submit the form and the State of Green Consortium will get back to you within a few business days.

We look forward to welcoming you on a State of Green Tour.

# About State of Green

As the official green brand for Denmark, State of Green gathers all leading players in the fields of energy, climate, water and environment and fosters relations with international stakeholders interested in learning from the Danish experience.

## Explore, Learn and Connect Online

## State of Green Consortium

The State of Green Consortium is the organisation behind the official green brand for Denmark. The consortium is a public-private partnership founded by the Danish Government, the Confederation of Danish Industry, the Danish Energy Association, the Danish Agriculture & Food Council and the Danish Wind Industry Association. H.R.H. Crown Prince Frederik of Denmark is patron of the State of Green Consortium.

State of Green's commercial partner is:
